The Extinction Agency has appeared roundabout the Emerson campus for the last six months. Several members of the group travelled to area hospitals with other students during the Christmas season to entertain hospitalized children. The Agency has already done one television program for WBTV and hopes to do another in the spring.

THE LINE-UP: (according to foot size)

 Bill Jenkins is a freshman at Emerson and has had quite an interesting life. Bill travelled thousands of miles across the country as a tire on a truck. In 1965 he was awarded the Goodyear Pin as the nation's most versatile piece of rubber. Bill retired from the business shortly thereafter and has released an intense burning odor from time to time during his second life. Bill is now working on a steel tire, hopefully to be marketed in 1977. "You'll never get flats," he says proudly.

 Spence Waugh is presently in her first year at Emerson College and is pleased as punch to have red hair. Spence is a distinguished fire exit thief and apparently the only living person still in the business. She works as a ghost writer for Rod McKuen and has done cement blocking for the Harvard Law School.

 John Baltzer wishes everyone a Happy New Year. John was elected Senator of Massachusetts under the alias of Edward Brooke and remained Senator until the real Edward Brooke could be located. John has done extensive work in the field of exploratory science and claims to have discovered the cigarette. "This weed come pop up outta da ground," he shouts to innocent passersby. John wishes to create the "supreme act of disfigured nose" to be used as a replacement for the Oldsmobile.

 Tom Townsend is the current birch tree at Emerson College. Once extremely flabby and obese, Tom has reformed and now sits alone in his room at night. But, all that time is not wasted, for he is now planning the takeover of the heavens. "I'll grab The Big One by the leg while everyone else bursts into his office. From there on in it's clear sailing. I think..." Tom purposely ignores all pigeons and will be flying to Detroit to plot his own suicide this summer.

A MESSAGE FROM DOCTOR OF PHILOSOPHY EDWARD R. McDONALD
ON THE USE OF CROSSWORD PUZZLES IN THEATRICAL PROGRAMS.

Good evening. The use of crossword puzzles in publications of any kind is something which involves a severe loss of public reading respect. Any publisher who would stoop to printing crossword puzzles in books or programs becomes a prime example of poor taste. Why should we waste our time and paper on crossword puzzles when we could be printing material dealing with serious social problems? That is why, when I learned that more and more people were beginning to seriously think of involving themselves in the latest fad of printing crossword puzzles for no particular reason, I gave up my fabulous job for one less known, that of traveling around the country speaking to people and convincing them that crossword puzzles in books and programs were immoral and unjustified. That was in 1966, and as you have probably noticed, not one novel or non-fiction hardcover book has contained a crossword puzzle unless the book dealt specifically with crossword puzzles. I have so redesigned the printing system that crossword puzzles now only appear in books of crossword puzzles. That way, the hungry crossword puzzle solver can get his fun out of one book. But the battle is not over. I must now stop the appearance of crossword puzzles in programs, as I have here. This is only one step. I need your help. Stop the spread of immorality and join the road to peaceful existence. Write to: Get Rid of those Awful Things (GROTATS) Box 456 Washington, D.C.

The Extinction Agency supports Dr. McDonald's Beliefs, and subsequently has left the crossword puzzle out of our program.

THE EXTINCTION AGENCY STAGESHOW
